

For All Parents!

Whether you choose to educate your children at home, in a private or public school, your rights as a parent are the same. The P.R.E. Symposium will explore the current regulatory, environmental, and political trends affecting all educational venues. As a concerned parent, you want to be involved in the direction of your child's education and assist in any manner possible.

We will have representatives from home schooling, private and public schools on hand to provide insight and answer questions that you have concerning your child's education.
